

# **Product Specification Sheet**

(Fast Response Model)

Model: MS3762F

Slim Plug-In Subtractor with Isolated Single/Dual Output

M83700

### DESCRIPTION

The MS3762F is a slim, plug-in subtractor (fast response model) that receives two DC current or voltage signals and outputs a signal proportional to the difference between those signals. The unit provides isolated single or dual output.

#### ORDERING CODE

| ORDERING CODE                          |   |  |  |

# Output 2 — No code: None

### The codes are the same as for Output 1.

**4W**: ±10V DC **5W**: ±5V DC

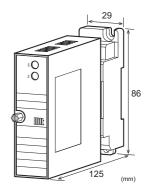

**0**: Other DC voltage signal

Note 1: When a voltage output is selected for Output 1, a current output cannot be selected for Output 2.

Note 2: When the code A (4 to 20mA) is selected for both of the two outputs, the output load will be  $550\Omega$  maximum for Output 1 and  $350\Omega$  maximum for Output 2.

### **Options**

No code: None /X: Special order

### ORDERING INFORMATION

To place an order, please use the ordering code format as shown on the left. Also specify Input-1 and Input-2 factors (K1, K2).

(e.g.) MS3762F-A-6A6 (K1 = 1.0 / K2 = 1.0)

\* Note that the Input-1 factor (K1) should be specified between 0.4 and 2.0, and the Input-2 factor (K2) between 0.1 and 2.0.

## Other Ordering Examples:

For an input code of "0": MS3762F-A-0AA (K1 = 1.0 / K2

= 1.0 / Input: 0.2 to 1V)

For an output code of "0": MS3762F-A-A60 (K1 = 1.0 / K2 = 1.0 / Output: 2 to 5V)

### **SPECIFICATIONS**

### **OINPUT SECTION**

### Input Resistance

| Voltage Input (DC) | With or without power: $1M\Omega$ min. |             |
|--------------------|--|-------------|
| Current Input (DC) | 4 to 20mA (std.)                       | $250\Omega$ |
|                    | 2 to 10mA                              | $250\Omega$ |
|                    | 1 to 5 mA                              | $100\Omega$ |
|                    | 0 to 20mA                              | $250\Omega$ |
|                    | 10 to 50mA                             | $10\Omega$  |

### Allowable Input Voltage

Voltage Input Model 30V DC max., continuous. (for a span

up to 10V)

Current Input Model 40mA DC max., continuous. (for 4 to

20mA)

<sup>\*</sup> For non-standard options, ask MTT for availability.

| Output Dangs  | trimmer.)                   |                  | MATERIALO             |
| Output Range  | 0 to approx. 120%           |                  | • MATERIALS           |
| Equation  | (0/) 714 (0/) 714 714       |                  | Housing               |

Output (%) = IN1 (%)  $\times$  K1 - IN2 (%)  $\times$  K2 where

IN1: Input 1 (%), K1: Input-1 factor IN2: Input 2 (%), K2: Input-2 factor

\* IN1 & IN2: 0 to 120%

(Example)

Input: 1 to 5V / Output: 0 to 10V, K1: 0.7, K2: 0.3 When the Input 1 is 3V (50%) and the Input 2 is 2V (25%), the output is:

 $50\% \times 0.7 - 25\% \times 0.3 = 27.5\% (2.75V)$ 

# Ranges Available

|                   | Current Signal | voitage Signai |
|-------------------|----------------|----------------|
| Output Range (DC) | 0 to 20mA      | -10 to 10V     |
| Output Span (DC)  | 4 to 20mA      | 10mV to 20V    |
| Output Bias       | 0 to 100%      | -100 to 100%   |

\* For current output signals, the accuracy of any current output smaller than 0.1mA is not guaranteed.

Output Spec. Ex.1: For 4 to 20mA output, the output span is 16mA and the bias +25%.

Output Spec. Ex. 2: For -1 to 4V output, the output span is 5V and the bias -20%.

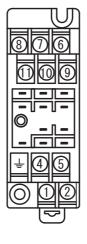

## PERFORMANCE

| Accuracy Rating | Better than $\pm 0.1\%$ of span (at $25^{\circ}\text{C}\pm 5^{\circ}\text{C}$ ). |
|-----------------|--|
| Temperature     | Better than ±0.2% of span per 10°C   |
| Effect          | change in ambient.   |
| Response Time   | 400μs max. (0 to 90%) with a step  |
|                 | input at 100%.   |
| CMRR            | 100dB min. (500V AC, 50/60Hz)  |
| Isolation       | 4-way isolation between input, output  |
|                 | [Output 1/Output 2], power, and  |
|                 | ground.  |

| $100 \mathrm{M}\Omega$ min. (@ 500V DC) between |
|---|
| input, output [Output 1/Output 2],              |
| power, and ground.                              |
| Input / Output [Output 1/Output 2] /            |
| [Power, Ground]: 2000V AC for 1                 |
