

Guide to convert old MPF order code to the new code

1. Conversion of Complete Order Code

	Fixed Character	URL	Type	Fitting	Capillary Fill	Wettable Material	Remote	Fixed Character	Stem Certification	Fixed Character	Enclosure Cap	Output	Engineering Units	Calibration Range	Display	Electrical Entry	Orientation	Enclosure Certification	Fixed Characters	
OLD	M	P	F	S	1					0	F								0	1
NEW	M	P	F	S						E										

OLD	NEW
6	9 6 6 G
6	9 6 6 C
7	9 7 1 G
7	9 7 1 C
8	9 8 1 G
8	9 8 1 C
9	9 8 4 G
9	9 8 4 C
A	9 6 6 A
B	9 7 1 A
C	9 8 1 A

Changes:
Four characters that used to represent "URL" and "Type" are being replaced with a single character. The table in the left shows mapping for those old four characters to a single new character.

- Field is being removed (Red)
- Field is kept as is (Green)
- Field being replaced with (Blue)

Table 1

2. Conversion of Stem Order Code

	Fixed Character	URL	Type	Fitting	Capillary Fill	Wettable Material	Remote	Fixed Character	Stem Certification
OLD	S	0						0	
NEW	S								

See Table 1 for four characters to single character conversion.

3. Conversion of Puck/Enclosure Order Code

	Fixed Character	Enclosure Cap	Output	Engineering Units	Calibration Range	Display	Electrical Entry	Orientation	Enclosure Certification	Fixed Characters
OLD	E								0	1
NEW	E
